FRASER YACHTS

To Whom It May Concern:

Captain Alistair Bendall was hired by Indigo Bay Ltd. as relief Captain of the M.Y Talon.

He took command during a very difficult refit period and managed it effortlessly.

When the full time captain resigned and left the boat very quickly Alistair stepped into the position with professionalism and dedication that was a credit to the industry.

Alistair has displayed all of the necessary skills to manage a large commercial vessel he is well versed in engineering, bridge resource, budgeting and accounting along with a personality the brings out the best in a happy and productive crew.

Under very tight budgetary restraints the safety of the owners, crew and vessel remained a top priority. From a fleet management prospective Alistair has shown a working knowledge of the complexities of class societies and of flag state regulation few in the industry have, this is an invaluable talent to a commercial charter yacht Captain.

I would have no reservations in recommending Alistair as Captain of either a private or a commercial yacht.

If you require any additional information please do not hesitate to contact me at the numbers below.
