Re: Alistair Bendall

To Whom It May Concern:

Alistair Bendall has been employed as captain on MY Revolver (ex MY Tongue) since September 2010. He took over a vessel that had been left without a crew for over 10 months, was in a poor state of repair and in need of both a cosmetic and electrical/mechanical refit.

Alistair negotiated with several yards and successfully oversaw the 8 month refit whilst communicating progress on a regular basis with management and the owners' offices. With his refit crew of engineers he also undertook a significant amount of the refit work. Many unforeseen issues arose during the refit but were dealt with effortlessly whilst still maintaining the initial deadline.

Since completion of the refit the yacht has been used intensely during two summer periods. She has to date had no breakdowns during the season, which we as managers feel is down to Alistair and his crews commitment to ensuring the yacht is maintained to the highest of standards. Alistair works closely with our financial team and has accounted for some very large sums of money. His accounts are always on time and correct and he has always maintained the yacht within the agreed budgets. All the yachts accounts go through Camper & Nicholson Management Department.

We have worked closely with Alistair and over this period have built up respect for his communication skills, accurate accounting, crew management and seamanship. He displays professionalism in all aspects of the running of a yacht and will be an asset to any yacht owner

Should you have any question or need additional information, do not hesitate to contact me at marina@oceanbluemanagement.com or +1.212.785.6600, +1.917.880.6466.
