To Whom It May Concern

Alistair Bendall was employed as Captain of Vittfari, a 30 metre Azimut, at the beginning of August 2001.

Alistair has proved to be a very stable, reliable, competent and trustworthy Captain during his five months with us. He was employed at very short notice and managed to collate a suitable crew in a minimal period of time and he experienced many new problems that come hand in hand with a new build. Alistair dealt with what ever came his way with a very calm and decisive attitude.

With regret, but due to very unforeseen circumstances from our point of view, it has been our decision to sell Vittfari and therefore we have had to release Alistair Bendall from his position.

We are very sorry to release Alistair and are pleased to commend him for any future position he wishes to embark upon.
